SANDEN

General Specification

Cooling capacity	0.4kW (Outside temperature 35°C 60% humidity at 60m³/h)
Air volume	Up to 70 m³/h
Refrigerant	HFC-134a / 100g
Operation environment temperature	15°C ~ 45°C (Storage -20°C ~ 60°C)
Power consumption	Below 120W (<10 amp)
Input voltage range	12v : DC11V ~ 16V via auxiliary power socket
Size	W185 x D275 x H333mm
Noise	70dB
IP Rating	IPx4
Weight	Approx 6.0kg

Performance Comparison

Test condition: Outside air temp 35°C, Humidity 60%

Sanden Air volume level

Light Blue : Air volume 3

Yellow : Air volume 2

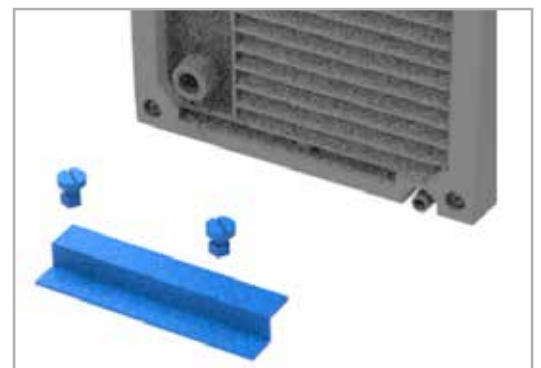

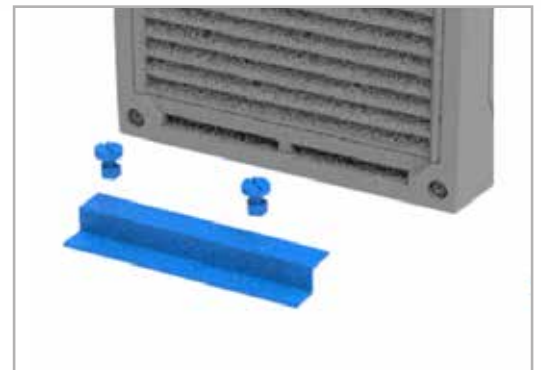

Competitor air volume level : Max

Under environmental condition (under 35°C)

Competitor : - 9°C

Sanden : Air flow volume 3 : -11°C
volume 2 : -12.5°C

Mounting

* Mounting option shown is concept only

Sanden International (Europe) GmbH

Office 7F01, Arena Offices, Grosvenor House, Basing View, Basingstoke RG21 4HG, UK.
